Glass Water Distiller LX8040GWD

Email: info@labdex.com **website:** www.labdex.com

Description

Glass Water Distiller LX8040GWD is a single water distiller, build with quartz glass heater for saving energy, for easy cleaning and long life. High quality glass distillers are used to avoid contact between water and metal part. Distillation switch is controlled through temperature controller and a reed water level.

Specifications

Configuration	Single distilled
Output of water	1800ml/h
Power	1.5 Kw
Electric supply	AC220V 50Hz
Dimension	770 x 200 x 680 mm
Net weight	6 kg
Packing dimension (L x W x H)	660 x 370 x 310 mm
Gross weight	22 kg

Features

- ˆ It has quartz glass tube heating type
- ˆ Relay protection device for safe operations
- ˆ Build with high quality wear resistant SS Stainless steel support column, column base
- ˆ High quality glass condensation cycle system
- ˆ It has automatic switch on/off mode to maintain water level height at safe operations

Applications

- ˆ Glass Water Distiller used to obtain pure distilled water required for different preparations across research and testing laboratories of pharmacy, biotechnology, tissue culture, microbiology, chemistry and other fields.
